

Willamette West Habitat for Humanity Builds More Than Houses. **We Build...**

FUTURES

"They say God never burdens you with more than you can bear. Well, I've survived an abusive husband, gall bladder surgery, and beat cancer three times. I have a heart condition and a messed up back. All while raising four boys. I guess God believes I'm one tough cookie! Now I'm about to be a homeowner. I can hardly believe I'm saying those words. I never dreamed it was possible."

—HABITAT HOMEOWNER

HOPE

The A Brush With Kindness program helps low-income homeowners with a hand up, not a hand out. Qualifying homeowners can have their homes painted, yards cleaned up, even critical repairs done (such as roofs, heating, insulation, or accessibility ramps). U.S. Military veterans qualify for an additional program. Homeowners regain their pride of ownership, neighborhoods are revitalized, and affordable housing stays affordable.

COMRADARIE

All faiths, all ideologies, and all walks of life come together on a Habitat construction site with one goal: change someone's life today.

"As a regular volunteer, I enjoy contributing my time to Willamette West Habitat for Humanity on the build site. It's great to be working with and learning from my site supervisors, team leaders and other volunteers. Working alongside the dedicated partner families inspires me to do my best to make the house I'm helping to build the very best home for them."

COMMUNITY
